

A book about absolutely nothing.

A book about absolutely nothing.

A book about absolutely nothing at all. A novel that isn't about any subject at all including fiction, nonfiction, fantasy or anything else that could be written about. This book is solely for entertainment and a conversation piece. It would make a great companion for the Paperback and Hardcover Coffee Table Editions. It is filled with blank pages except for a table of contents. Please do not take it seriously.

This Kindle Edition contains a few secrets that the physical editions do not.
