

Your worst nightmare is his dream come true....A relentless debut novel filled with cutting-edge forensic and investigative detail, Birdman marks the arrival of a uniquely talented writer. Detective Jack Caffery--young, driven, and seemingly unshockable--catches a career-making or career-breaking homicide in his first case as lead investigator with Londons crack murder squad. A young womans body has been discovered, dumped on wasteland near the Millennium Dome site in Greenwich, England. Its the most brutal degradation of the human form that the squad has ever uncovered. Cafferys well-deserved reputation is that of the most stoic of detectives, but his initial inspection of the corpse will forever sear his psyche. One by one, four more corpses are discovered only steps away from the first. Five bodies, all young women, all ritualistically murdered with cunning precision. And when a postmortem examination reveals a singular, macabre signature linking the victims, Caffery realizes that hes facing the most dangerous offender known to the force: a sexual serial killer. In the murky recesses of his own mind, Caffery harbors the haunting legacy of a loved ones slaying. What baffles him is that not a single missing persons report has been filed for any of the five young women. How has the Birdman chosen these seemingly perfect victims? Now, as he employs every weapon forensic science can offer, Caffery knows that time is running out before the killer strikes again, and that he must put away his tortured past in order to safeguard the Birdmans next prey. With refined craft and beguiling imagination, Mo Hayder is certain to skip the hearts of the most demanding readers of crime fiction.
