

## Coffin in Fashion

Scotland Yards eminent Detective John Coffin was a mere sergeant. Anticipating a promotion, he buys a house that needs repairs and proves a catalyst to dire events. Workmen find the body of an adolescent boy under the floor - and Coffin, though its not his case, keeps up with an investigation that comes to center on his own neighbors. Attracted to Rose Hilaire, the sergeant learns that her son was a friend of the murder victim and of other missing boys. Roses troubles multiply as she fights to protect her son and her dress factory, hard-won after years of poverty. The business is threatened not only by scandal but by Roses designer, Gaby Glass, who schemes to take off with her creations.
