

## Catching the Wind: A Search for God

An inspiring memoir, spanning 73 years, from humble beginnings to becoming the head of Fiji's civil aviation regulator, and participating with ICAO in the introduction of new technologies (such as GPS) which made aviation safer and more efficient locally regionally and internationally. And a rare expose into the personal lives of a Chinese migrant family living in Fiji, of childhood escapades, of love and marriage, as well as Normans incredible spiritual experiences where in mid-career, God intervened dramatically and changed his whole outlook on life A book to inspire you to Catch the Wind of your dreams of a successful life.
