

Crossing the Line: Jessica Daniel, Book 8

The point of no return... Long before Jessica Daniel became a police detective, Manchester was a ghost city after dark. Fear ruled, and people were afraid to be out by themselves, the notorious Stretford Slasher terrorizing its inhabitants. Now, twenty-five years on, the media are feeling nostalgic. But Jessica has a new case to worry about. Apparent strangers are being targeted in broad daylight, the attacker unworried about being caught. If only Jessica and her team could track him down...Its the coldest spring in memory, and Jessica has old friends to look out for plus secrets--so many secrets--that should have long been buried.
