

Midnight Daylight, Ravens own story

From suburban Oregon to the wilds of Alaska, *Midnight Daylight* is an incredible memoir of endurance, and the sheer guts of one woman's journey. She has forsaken her career, her home and friends, and lost her parents and only child. She cannot go back. Instead, with her young dog she strikes out to conquer her fears and finds herself in an unforgiving land--met with betrayal and broken dreams. Through bitter cold, back-breaking work and grim determination, she manages to survive and eventually finds her one true love in the land of the Midnight Sun. Her remarkable adventure began in an old trappers cabin in the wilds of Alaska, far removed from electricity and running water. *Midnight Daylight* is about fortitude, determination, and overcoming limitations in the face of tremendous difficulty. Readers will recognize some aspect of themselves in the truly heartrending and unforgettable story. *Midnight Daylight* will show there can be hope born out of despair, strength from seeming weakness, and love beyond measure. As *Midnight Daylight* begins the reader is introduced to a parallel universe, a kaleidoscopic view of flash backs and current episodes that well reflect Raven Wi's disjointed sense of being. Before long her characters emerge as surrogates for good and evil; found friendships, new and old, versus insidious betrayals. The success of her journey eventually rests with her Spirit whom she finally finds has abandoned her only in her mind. Jack Randall, author.
