A maze puzzle is a series with 4 levels for each style. This book is a starter level for the beginner level. You can start playing maze with this book then move on to intermediate level and higher for the next book. A maze is a tour puzzle in the form of a complex branching passage through which the solver must find a route. The pathways and walls in a maze are fixed, and puzzles in which the walls and paths can change during the game are also categorized as tour puzzles. Technically the maze is distinguished from the labyrinth, which has a single through-route with twists and turns but without branches, and is not designed to be as difficult to navigate. In everyday speech, a maze denotes a complex and confusing series of pathways.
