

New Habits: From sisterhood to motherhood

The sequel to the popular *Kicking the Habit!* When Eleanor Stewart abandoned her vows and her life as a nun, she found herself in the middle of the swinging Sixties and soon joined in. Boyfriends, parties, and mini-skirts took the place of silence and restraint, as she pursued her career as a midwife and the men she met with equal commitment. Troubled by her relationship with her mother, and what she saw as a growing estrangement from her faith, she finally falls in love and settles down only to discover her past catching up with her, as she faces infertility. But with her husband at her side, they battle to adopt two children. Will the dream of a happy family, that drove her out of the convent, finally come true?
