

OpenOffice 3.4 Volume II: Calc is the second book of the four-volume OpenOffice series by Quantum Scientific Publishing. The OpenOffice series provides step-by-step instructions on navigating basic, as well as advanced features within the Apache OpenOffice Suite, version 3.4. OpenOffice Calc is an impressive spreadsheet tool used to organize and calculate data. This book begins by introducing the basic functions and layout of Calc, and then progresses to more complex features and operations. By following along with the steps provided in this book, readers will learn dozens of useful tasks such as: creating spreadsheets, adding ClipArt, inserting formulas into spreadsheets, calculating data, formatting data within existing spreadsheets, and much more!
