

Scorpion Winter

Crisis in Ukraine. In the frozen wastes of Siberia, a silver artifact is stolen from a dead man . . . In the Middle East, the carefully planned strike on a terrorist leader goes disastrously wrong . . . These seemingly unrelated incidents have placed the former CIA covert operative-turned-freelance spy, code-named Scorpion, in a desperate position: joining forces with a beautiful woman to prevent the assassination of a powerful Ukrainian politician. But treachery breeds terror in the long shadow of a dangerous Russia, as Scorpion finds himself caught in a lethal trap sprung by an unknown enemy--perhaps someone on his own side of the game. And now time is ticking rapidly away with the whole world balancing on a knives edge, just days from the opening salvos of a catastrophic war in Europe.
