

## Mindful of Madness

Astonishing comeuppance on tap! Once, in a dream, after some powerful persuasion by disembodied voices, Conrad Buncombe is pitted against desire... and wins! He barely has time to celebrate when a sapphire-eyed beauty emerges tapping and reciting from a fold in his mind. The dream light immediately homes in on her, and he is nudged to the sideline. Woe is he! Conrad Buncombe had only stepped out of the light - his light - to harness desire. Now he is a spectator to his own dream. Nightly, the sapphire-eyed beauty turns out - tapping her beat, crooning her verse; and nightly he schemes for control. The gig, however, is totally hers. His dream light makes it so; and he greatly desires to get back in before another whit of his mind is snatched. Against a backdrop of surreal muck and bother, in an abyss that presents as a looking-glass nightmare, Conrad Buncombe is pitted against desire a second time. Down, down, down he goes. Where he stops, nobody knows! Everything, including his smile, is up for grabs as he wends his way wherever. Does he harness desire? Does desire harness him? Tap along and find out...
